

# TIME SLAVE

3TEETH

Chasing coins right down the drain  
Like a moth right to the flame  
It's your mind that sold your heart  
How I watch you fall apart  
You know exactly who I am  
I'm the machine that consumes man  
Eating time my master plan  
Follow me and take my hand

Hands will break and gears will race as you become  
Time slave  
Lives misplaced and minds erased as you become  
Time slave

In my shadow of progress  
I can sense what I've repressed  
Accelerate right towards the end  
As I finally comprehend  
That I am you and you are me  
Disembodied voice of greed  
Breeding swine right from my need  
Swallow me and rape my

Hands will break and gears will race as you become  
Time slave  
Lives misplaced and minds erased as you become  
Time slave  
Hands will break and gears will race as you become  
Time slave  
Lives misplaced and minds erased as you become  
Time slave

Hands will break and gears will race as you become  
Time slave  
Lives misplaced and minds erased as you become  
Time slave  
Hands will break and gears will race as you become  
Time slave  
Lives misplaced and minds erased as you become
