

Unveiled

3TEETH

Free yourself from the lie tonight
Unveil the truth before you die

Let it go
Let it go

I want you to come in through to me
I need you to come in through to me

I want you to know
I need you to know

Unplug yourself from all this fight
Let go of all that you hold tight

Let it go
Let it go

I want you to come in through to me
I need you to come in through to me

I want you to know
I need you to know

Let it go
Let it go

Unveil me with your knife tonight
Cut through me with your strifing light
