

## Curious

## 4 Strings

I've got your name not your number  
I heard you found some better place  
All I can do is wonder  
Whatever made you leave that day?

I'd need to know a reason  
Before I ask for a second chance  
I'd be down on my knees  
If you came back again

Cause I'm curious what you're doing  
I'm curious where you've been  
Cause the way you make me feel  
Has never changed

Never

I'm curious what you're thinkin' of  
I'm curious if it's me  
Cause the way you make me feel  
Has never changed

Never

Take your time to remember  
But don't you take me for a fool  
It's getting tough and I wonder  
Did I ever give up on you?

I need to know a reason  
Before I ask for a second chance  
I'll be down on my knees  
If you'll come back again

Curious what you're doin'  
I'm curious where you've been  
Cause the way you make me feel  
Has never changed

Cause I'm curious what you're thinkin' of  
I'm curious if it's me  
Cause the way you make me feel  
Has never changed

Did I ever? Did I ever? Did I ever give up on you?
