Turn it around, baby Spend more time with me Try to believe you Try to believe you...

Turn it around, baby Spend more time with me It's getting insane, I know Let it not be true...

Turn it around baby...
Turn it around...

I need you
I can only be myself with you
I need you
I can only be myself with you
I can only be myself...

Turn it around

Turn it around, baby Let us break the rules You know I need you I need to feel you

Turn it around baby And find me here Waiting for you babe only for you babe

I need you
I can only be myself with you
I need you
I can only be myself with you
I can only be myself...
