

I'm the one who bends you backwards  
The one who grips your fear  
I'm the one who steals the nightmares  
And makes them disappear  
I'm the one who gives you pleasure  
The one who adds your pain  
I'm the one who tricks your sorrow  
I'm the one who speaks your name  
I suffer and never walk away  
Cos you are the only one who takes the breath off me

I can rock you to sleep  
And slip inside your dreams  
You are the only one that can bring me to my knees  
I can feel you next to me  
You're the very air I breath  
You are the supernova in my galaxy

I am the one who loves you  
Wipe your tears away  
I'm always thinking of you  
Need you here with me  
I'll be the answers that you're looking for  
And I can shake you up after  
And make you shake some more  
Lover  
We can rule the Earth  
Cos you are the only one that knocks me from what hurts

I can rock you to sleep  
And slip inside your dreams  
You are the only one that can bring me to my knees  
I can feel you next to me  
You're the very air I breath  
You are the supernova in my galaxy

And when I call for you through the dying embers  
This is the part of the dream that I will always remember  
I am on fire for you  
And it burns forever  
If I never awake  
And I can bleed always be together

So all the matter in the universe  
The only thing that matters to me  
Is you

I can rock you to sleep  
And slip inside your dreams  
You are the only one that can bring me to my knees  
I can feel you next to me  
You're the very air I breath  
You are the supernova in my galaxy

In my galaxy (2x)
