

Power Tool

40 Below Summer

I shut your eyes and I fed you lies
I'm up inside - now I cannot hide
those burns on your skin
and the stains on your grin
I took your pain
now you're dropped again

I can't feel the way you want me to -
I'll use you, abuse you, conveniently lose you
I can't feel the way you want me to
It's just my power tool

Who takes your hand
who makes you dance
who's in your pants
your lover, player, president

I can't feel the way you want me to
I'll use you, abuse you, conveniently lose you
I can't feel the way you want me to
It's just my power tool

You lose - don't confuse - what I say
I took you - then threw you away
You're through - don't misconstrue - what I said
All I wanted was just a little head

I can't feel the way you want me to
I'll use you, abuse you
I'll use you, confuse you
I can't feel the way you want me to
It's just my power tool
