

## Tell Me Now

40 Below Summer

Where is the answer  
and where is the game  
and where is the solace you seek in this your season of  
pain  
and where is the future  
and where are the signs  
and where is the truth you believe on this the last day  
of your life  
now say goodbye  
so tell me now

how can we survive  
when our world is broken  
we're burned and crucified  
when the lies are spoke  
the light can't break through

this is the ending  
this is the time  
and this is the day of our judgment  
look up to that hole in the sky  
can you believe it  
can you deny  
and can you hold on to your life as it just passes you  
by  
now shut your eyes  
so tell me now

how can we survive  
when our world is broken  
we're burned and crucified  
when the lies are spoke  
the time stops again

tell me now how to make things right  
come wipe these tears from my eyes  
tell me now how to make things right  
come wipe these tears from my eyes

how can we survive  
when our world is broken  
we're burned and crucified (crucified)  
when the lies are spoke (lies are spoken)  
how can we survive (lies are spoken)  
lies are spoken  
lies are spoken  
and time ticks away  
tick tick away  
tick tick away  
tick tick away
