

Never forget where I came from
All my lil niggas got my main number
Call me if you need me
I miss Lou I still miss Reese

Lately I've been arguing too much with Drekk
Still tryna send some up to my people
I don't give a fuck I don't give a fuck neither
Shit done dropped
Nigga ion got beef

Catch one stretch on whoever I see
I done put a couple hundred thousand my Jeep
Before I let another bitch tell me talk cheap
I throw vs1's all on my teeth

Feds watchin close only reason there's peace
I still wax some nigga on me
Wild in the max can't even get pics
Reek nell or ap still gotta call private

Next nigga that screamed doggy bone ain't yeah
Ima turn the whole east side to coney island
Post that bitch
Them the hoes I miss
The lam got crashed but the ghost got spent
Cudi got gas but I'd rather sell bricks

I'd rather
Help a nigga out who loosin
Every time I touch down nigga its a movie
Ten of us buffed down yea we from the D
Scratch that all my niggas from the East
I spent 6500 on some seats
Doggy that ain't shit to a nigga with 3 Ms
I done got tired of fucking nigga's BM's
I don't wanna fuck baby can't we be friends
She don't wanna be friends, doggy
Can we fuck not us
Streets freed Lou, that's just my luck
Can't fall in love gotta test my trust

My baby want a kid this year
I told her let's live this year
Shit got real on the phone
Lawyer fuck around and get spoiled
Bring me 150 cash
I done had to jump all the way in my bag
Fastest blue thing on the street that's mine

I-I-I never forget where I came from
All my lil niggas got my main number
Call me if you need me
I miss Lou I still miss Reese
