

Tell me you love me
(I got Hitman on the beat)
I'm tripping, bae I'm wild'n

Tell me you love me you need me
Nothing can change yo mind neither
On my way to drip ya in the big jet 25 seater
Can't find her in Louis or Saks Chanel our vibe either
Care enough to rub on her back might put a son in her
Fucking her she fucking me back I'm having fun in it
Where was ya'll when I was just stressed couldn't put my head up
75 driving my best I'm getting fed up
Parties niggas wanna get blessed having they hand out
Used to need like five different bitches yo you my mans now
Really made away for the trenches that's why I stand out
Nashville all in the kitchen like where was you
Pressing down on fatty with cups still on a spoon

Soon I'll be back to myself
Soon I won't need nobody else
Who gone be there for me when I need em
Help me live fulfill my dreams
Soon I'll be back to myself
Soon I won't need nobody else
Who gone be there for me when I need em
Help me live fulfill my dreams

Know it's crazy since I made it I feel like niggas been hating
Wanted my paper ain't too much focused on dating
I just had a baby it feel like it's driving me crazy
Momma out the hood while I'm out here doing good

Soon I'll be back to myself

Who you know that spend five thousand on belts
Momma look how you left me
Down bad and stressed
I need you now more than ever that money they could have kept
You don't know how much I been missing you, Neff, Reesy, and Lil Roz
Instead of yo life I wish they would have took mine
Caught me by surprise girly you know I'm done

Soon I'll be back to myself
Soon I won't need nobody else
Who gone be there for me when I need em
Help me live fulfill my dreams
Soon I'll be back to myself
Soon I won't need nobody else
Who gone be there for me when I need em
Help me live fulfill my dreams

Soon I'll be back to myself
Soon I won't need nobody else
Who gone be there for me when I need em
Help me live fulfill my dreams
Soon I'll be back to myself
Soon I won't need nobody else

Who gone be there for me when I need em
Help me live fulfill my dreams
