I might just call and catch a plane
I might just come see you today
You hate I'm stuck up in my ways
But love it when I'm playin' games
That's the only way we get away
We stuck together, you mines forever
That's why I cannot go away
I'll leave you screamin' anything

You'll find a way to keep me in
Make me think you threw some magic in it (Oh, no)
Act like you did it, mm-hmm, yeah
Don't be trippin', I'll be there in a minute
You itty-bitty, and I'll be there

Be there

I might just call and catch a plane
I might just come see you today
You hate I'm stuck up in my ways
But love it when I'm playin' games
That's the only way we get away
We stuck together, you mines forever
That's why I cannot go away
