

hope u don't mind

(Hope you don't mind)

Hope you don't mind
If I fuck you all night
Take you for a ride
You can't come down
Fuck that, slow it down
Give it to me all now
You get me so high
I can't come down

I can't come down
We go another round
I can pull up to your house

We got soul ties
Fucking all night
Tissues, just ride
Break you from behind
We got soul ties
Fucking all night
Tissues, just ride
Break you from behind

Hope you don't mind
If I fuck you all night
Take you for a ride
You can't come down
Fuck that, slow it down
Give it to me all now
You get me so high
I can't come down

I can't come down
I can't come down

We got soul ties
Fucking all night
Tissues, just ride
Break you from behind
We got soul ties
Fucking all night
Tissues, just ride
Break you from behind

Hope you don't mind
If I fuck you all night
