

What are we trying to hide?
What are we trying to conceal?
When we hold this treasure inside
Of heaven that is evidently real
It's time to say the words
And live the words we say
We are a testament of Jesus on display

Obvious in us
It must be obvious
Like writing on the wall
Obvious in us
It must be obvious

This is a desperate place
Crying out for truth to be revealed
So why don't we cut to the chase
And tell it like it is
We're on a mission
There's no time for masquerade
We are the evidence of God's amazing grace

The truth should be obvious
The truth should be obvious

We've got to say the words
And live the words we say
We are the evidence
Of God's amazing grace

Obvious in you and me
Let the truth be plain to see
Crystal clear like writing on the wall

Obvious in you and me
Let His love be plain to see
The fruit we bear is no mystery at all
