

That Kind of Love

4HIM

Happiness in view
Please let it be true
How I've waited in line
Longing for a love
To come hold this heart of mine
Promises unkept
Boundaries overstepped
Left alone with the hurt
Feeling like my life
Couldn't feel much worse

Then I saw the way You saw Me
As my heart let You come in
And I know I felt You hold me
When You told me I could live
Safe in Your arms
That's what I want
That kind of love

Love that will not leave
Use me or deceive
One I know I can trust
Love that will not bring me down
And always builds me up
Love that knows my soul
Shows me where to go
When all I see is a cloud
How could this exist as I stood there
In my doubt

You opened my soul
With what I'd never known
At a time when I was so so alone
