

even the deepest wound can heal  
i know that now  
but only if you to let'em

even a broken heart can beat  
i know that now  
but only if you let it

we are poisoned by our one fairytales  
can't accept the fact that our good plan fails  
because we let it

times change people change  
times change people change  
and so did we

even a broken man can walk  
i know that now  
but only if you let him

we are poisoned by our one fairytales  
can't accept the fact that our good plan fails  
and so did we

times change people change (and so did we)  
times change people change (and so did we)  
now i know  
now i go  
now for the last time

i give up now

even a sad man can smile  
i know that now  
because i'm smiling

even a memory can die  
i know that now  
cuz i forgot you

i forgot you  
i give up now  
Now i know  
Now i go for the last time  
i gotta leave tonight  
i give up now
