

Best Years

5 Seconds of Summer

You got a million reasons to hesitate
But darling, the future's better than yesterday
Wasted so much time on people that reminded me of you
Gave you a million reasons to walk away

But I built a house out of the mess and all the broken pieces
I'll make up for all of your tears

I'll give you the best years
I'll give you the best years
Past love, burned out like a cigarette
I promise, darling, you won't regret
The best years

I wanna hold your hand when you drink too much
And carry you home when you can not stand up
You did all these things for me when I was half the man for you
I wanna hold your hand while we're growing up

But I built a house out of the mess and all the broken pieces
I'll make up for all of your tears

I'll give you the best years
I'll give you the best years
Past love, burned out like a cigarette
I promise, darling, you won't regret
The best years
The best years

I'll give you the best years
I'll give you the best years
Past love, burned out like a cigarette
I promise, darling, you won't regret
The best years
The best years
