

High

5 Seconds of Summer

Check, two

I hope you think of me high
I hope you think of me highly
When you're with someone else
I know your friends all lie
I know your friends don't like me
They want you for themselves

Today, I called to tell you that I'm changing
But I don't think you have enough respect to see me try
I've been waking up in different spaces
And I think that my heart is built to last more than a night

I need to stop letting me down, down, down, down, down
I need to stop letting me down, down, down, down, down

I hope you think of me high
I hope you think of me highly
When you're with someone else
I know your friends all lie
I know your friends don't like me
They want you for themselves

I know I'll never meet your expectations (Ah, ah)

But the picture that you paint of me looks better in your mind
Now every step I take with hesitation (Ah, ah)
And I'll always miss the memories of the mornings we were high

I need to stop letting me down, down, down, down, down
I need to stop letting me down, down, down, down, down

I hope you think of me high
I hope you think of me highly
When you're with someone else
I know your friends all lie
I know your friends don't like me
They want you for themselves

Da-da-da, da-da-da-da-da
Da-da-da, ooh
When you're with someone else
Da-da-da, da-da-da-da-da
Da-da-da, ooh
They want you for themselves

I hope you think of me high
I hope you think of me highly
When you're with someone else
