

NOT OK

5 Seconds of Summer

Inside every one of us is a shadow side
I call it my better side
I call it the call-me-up-if-you-wanna-feel-better side
I'll put on my suit and tie to emphasize
You and I together, double homicide
Let's ride

Alright, are you my little genie or a parasite?
Girl, you keep the dream alive
Why you got me staying crazy hours after closing time?
Lucifer in every line, every night
You and I together, we should take a bite
Let's ride

I wanna dip my toe into the fire
Where did the good boy go? Killed by desire
On the edge
You make me wanna jump, jump, jump, jump, jump, jump, jump, jump

Hey, I'm not okay
I like the darker side of me, that part of me
Comes out to play when I'm with you, you
Bite the apple, baby
Hey, I'm not okay
It's like a hammer to the brain, all my insane
Comes out to play when I'm with you, you
Bite the apple, baby

Oh my god, I feel invincible
And when the sun comes up, I feel despicable
And when my heart slows down, will you pick me up?
But we can pause for now, I think I said enough, uh

I wanna dip my toe into the fire
Where did the good boy go? Killed by desire
On the edge
You make me wanna jump, jump, jump, jump, jump, jump, jump, jump

Hey, I'm not okay
I like the darker side of me, that part of me
Comes out to play when I'm with you, you
Bite the apple, baby
Hey, I'm not okay
It's like a hammer to the brain, all my insane
Comes out to play when I'm with you, you
Bite the apple, baby

Hey, give me a sip of it
It's 1 in the morning
Got these wheels rolling
It's 4 in the morning
All over the city
And I said I love you, but I didn't really mean it
I, I don't think, but
Anyways, turn it up
Hey, hey, hey, hey

Hey, I'm not okay
I like the darker side of me, that part of me
Comes out to play when I'm with you, you
Bite the apple, baby
Hey, I'm not okay
It's like a hammer to the brain
All my insane
Comes out to play when I'm with you, you
Bite the apple, baby

Oh my god, I feel invincible
