

Being Fooled

54-40

I was born to believe
There's a billion games to play
Without a reason
No one could explain

I'm being fooled
Yesterday
I felt I was afraid
Now how come

I don't feel that way today
I'm being fooled
Now don't give up
What sanity you've got

Because what you've got's
Gonna have to last you a long long time
I'm being fooled
Well I could drug my head

And drink myself away
Fly above the clouds
And beat the rain
I'm being fooled

I'm being fooled
