Calling You Out

54-40

Livin' large ain't so easy
When there's no one to get you by
And the edge always finds you
Just when things seem to be goin' fine

And I'm calling
Calling you out
Just to see if anybody's home
Yeah I'm calling
Calling you out
My heart don't wanna be alone

Something bad always happens
When you love it makes me oh-so sad
I don't know why I feel so locked up
Inside these walls that are driving me mad

And I'm calling
Calling you out
Just to see if anybody's home
Yeah I'm calling
Calling you out
My heart don't wanna be alone

Whatever it is you're afraid of
I'll take you there tonight
Throw down your hair and makeup
Come on down with me tonight

And I'm calling
Calling you out
Just to see if anybody's home
Yeah I'm calling
Calling you out
My heart don't wanna be alone...

Just to see if anybody's home
Take me home
