

# Can't Get Enough

54-40

What I got to say to you  
I know that I can carry the moon  
What's it all coming to  
When you're standing in the shadow you lose  
Baby I'm in love with you  
Say my name and say it true  
Come on baby, let the good times roll tonight

I can't get enough of you  
Again I'm stuck, again I'm stuck in two

I know that there may be trouble ahead  
So let's just face the music now, and dance  
You grow a little light in the breath  
And run electric red through your head  
Before I can explain this doubt  
You know it's you and no one else  
Come on baby, let the good times roll tonight

I can't get enough of you  
Again I'm stuck, again I'm stuck in two

Everything changes overnight  
Whatever you ask for is answered

Explain yourself and what you're doing  
And who you say you are  
'Cause it ain't moving anywhere till you open your heart

I can't get enough of you  
Again I'm stuck, again I'm stuck in two
