

Come Here

54-40

Now if you're going to be here, come along with me
Maybe I could show you something you've never seen
Obey the voices in a spiritual way
I'm going to live those heavenly ways

Come here

The ghost of corruption with a shadow of shame
Will take your money and leave you to blame
I'm just the one whose telling you why
Don't you know you've got nothing to hide

Come Here

I sing the song of hope, I sing the song of love
There's mercy in my heart from heaven up above
So don't worry 'cause the Lord, He sees
If you're living with dignity

Come here
