

## Everyday

54-40

I have to grow up forever today  
I won't be back till very late  
Memories I have seem so far away  
I won't send you pretty flowers  
I won't send you out in a storm  
I won't send you out behind my door

Chorus:

Everyday is a new day  
One may pray  
Feeling blue  
Everyday is a new day with you  
A flower grows to live it's own life  
A storm will show us that something isn't right  
My door is open to see me  
I need some light

Chorus

Sing out to me there's no shame to be dreaming  
Sing out to me there's no shame  
Sing out to me oh please sing me your dream

Chorus

Now who am I to walk away  
Who am I to walk away  
Yeah who am I to walk away from you?
