

You should know that I'm crashing into you  
You should know this you're crashing into me too  
We can't stop it but we can make it  
Go baby go

No one else can feel like the one you are to me  
You're like a rainbow with the whitest lightening beam  
Heading straight for me a beautiful crash  
Go go go

It took me oh so long to scare myself straight  
Because I might be wrong in what I will take  
And then it's pointless

And if the warm sunshine is real or not  
I think I might be blind from looking too long  
And then it's pointless  
Unless you notice  
We're gonna crash
