

She Calls Us One

54-40

Sometimes when I get home
I don't wanna see her
I can't bear to talk
Wanna be the wall
Distortion fills my head so where is the answer?
I don't know no more

She can see all of me
If I'm a kite, she's the string that holds me
She calls us one

The times that love can bring
Try for an answer
When the real world don't wanna go, we all leave
Distraction fills our eyes at the binds and the ceiling
Of what we used to be

She can see all of me
This I know
If I'm the rain, she's the lake that holds me
She calls us one

She can see all of me
This I know
If I'm alone, she's the one
She can see all of me
This I know
If I'm alone, she's the earth that holds me
She calls us one
She calls us one
She calls us one
