

## Take My Hand

54-40

I'm thinking in circles  
Don't know where to turn  
All messed up are my signals  
Go nothing left to burn  
Take my hand  
Take my hand  
Take my hand  
If you hold me I won't ever let you fall down  
If I hold you I have to face that wall not now  
I need you you're my witness

To all I have seen  
What I'm going to do with this is  
Set people free ("Come on now")  
Take my hand  
Take my hand  
Take my hand  
And we'll go running  
We'll go running  
We'll go running running away  
I'm gonna run away take my hand
