

Where Did the Money Go

54-40

Where did the money go what are you saying
Didn't you ever know the name of the game
Feels like none of this is dead or alive
Reach in the void I guess we do or we die

Even if it's sayonara baby

Where did the money go what are you saying
Didn't you ever know the name of the game
I love you
Where did the money go what are you saying

Wasted away again look at the day
Give us a kiss my dear ease up the pain
'Cause I wanna make you understand
I wanna be your lovin' man

There's a price for walking in your life
I don't deny we're running out of time
It's a sign like a star like a star in the sky
But I want you I still want you
