

I wish I knew what you were thinking, I wish I knew what you believed

If I could tell what you were saying, When you say you won't be deceived

All there really is, Is the next thing that will happen

If you get it more than this, I wish I knew, Wish I knew you

I wish I knew what you were saying, When you say you have given up

If I could see through your eyes only, If I could feel what you did wrong

It's the best game in the world, Sometimes you get burned

If you're getting more than this, I wish I knew, wish I knew you

I wish I knew, wish I knew you

Go, go, go, give up your place to hide

No more watching it all go by

It's the best game in the world, Sometimes you get burned

If you're getting more than you're worth, I wish I knew, wish I knew you

I wish I knew, wish I knew you

Go, go, go, give up your place to hide

No more watching it all go by

Go, go, go, give up your place to hide

No more watching it all go by
