

Come to my side...

Come to my side...

[VERSE]

I keep my word in silence

You gotta peace' off

I never find myself in this situation

The beauty that surrounds me

The lights are shining off

I never saw myself in this place

[CHORUS]

You know I'm trying

I'm Trying to get over

Just be right here when it's all over

Don't make me waiting

Waiting to decide

Will you be here when it's all over?

Come to my side (COME TO MY SIDE!)

I just can't be here all alone

I'll pray tonight (I'LL PRAY TONIGHT!)

I just can't let this anymore

[VERSE]

All have been some pieces

You pick them all up

You come and make me

WHOLE AGAIN!

[CHORUS]

You know I'm trying

I'm Trying to get over

Just be right here when it's all over

Don't make me waiting

Waiting to decide

Will you be here when it's all over?

Come to my side (COME TO MY SIDE!)

I just can't be here all alone

I'll pray tonight (I'LL PRAY TONIGHT!)

I just can't let this anymore

COME-TO-MY-SIDE!

COME-TO-MY-SIDE!

Come to my side (COME TO MY SIDE!)

I just can't be here all alone

I'll pray tonight (I'LL PRAY TONIGHT!)

I just can't let this anymore

[x2 times]
