

# Interstellar

6 Dogs

Hit one spark, yeah, we blowin' up out of here  
Tesla in the dark night, was a long year, yeah  
Yeah, yeah, yeah  
Yeah

Hit one spark, yeah, we blowin' up out of here  
Tesla in the dark night, yeah, was a long year  
Feels just right when I'm with and my gang livin'  
TVs in the house but you know no screens vivid  
Watch pirated movies in the Caribbean  
Chanel black pearls on my neck got some pressure, yeah  
Really got some pressure, yeah, yeah

See a silver badge but you know that we biding em  
Now I'm on a roll like Kirby cc for a mission  
Beach house, I got sand on designer linen  
And I'ma cop a 5G proof chain, I've been livin'  
In and out of lanes I'm swervin' again, okay  
You can hear the flames when the song will begin, okay  
You're going through a phase, I'm glowing again  
You can't see the flames we juiced up again  
Rain storm in the Caribbean, dollar bills fall  
Weavin' in and out of traffic 'til the wheels fall off  
I've been in and out of meditative states  
All the money on my shoes and I'll pile that's some high stakes  
On world tours, like save this date  
All the money, yeah, I'ma contemplate  
In the moshpit, I go insane, yeah  
Open up that moshpit

Hit one spark, yeah, we blowin' up out of here  
Tesla in the dark night, yeah, was a long year  
Feels just right when I'm with and my gang livin' (Yeah, yeah, yeah, yeah)  
TVs in the house but you know no screens vivid (Yeah, yeah, yeah, yeah)

Lamborghini dreams, interstellar beams  
Lamborghini sports car, color Halloween, yeah  
Michael Jordan dreams, Kobe and Kareem  
Wave builder surfboard color call it cream  
Yeah, we've been searching the world on the jet  
To count the diamonds and pearls on your neck  
We held it down, you deserve private flex  
We whip around with the swerve in the Tesla  
I've seen different colors in my mind you can't see  
I seen aliens arrive and we can talk in my dreams  
If you look up in the sky you see the things you can't be  
Rollin' up, the anxiety high you need sleep, yeah  
Yeah, tell me what you need, spachship got some weed  
Know you seen the stars, but just for [?]  
Ballin' up on Mars, it's closer than it seems  
I passed the time machine, it's 1993

Hit one spark, yeah, we blowin' up out of here  
Tesla in the dark night, yeah, was a long year  
Feels just right when I'm with and my gang livin'  
TVs in the house but you know no screens vivid  
Watch pirated movies in the Caribbean

Chanel black pears on my neck got some pressure, yeah  
Really got some pressure, yeah, yeah
