

Off The Gas

6 Dogs

When I'm off the gas, I can see things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
New things, old things, dead things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
New things, old things, dead things

Look kinda dirty from the Goodwill
Shirt cost a buck, but the belt's real
Smokin' good luck in that Cloverfield
Then we peel off like banana peels
"You won't be shit," that's what they said
"You can eat a dick," that's what I said
I can never be another has been
Stretch this money like elastic, I'm cappin'
When I'm off the gas, I see dead faces laughin'
Swervin' in the car, and my girl thick like traffic
Poof, no rooftop, gone like magic
(Poof, no rooftop, gone like magic)

When I'm off the gas, I can see things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
New things, old things, dead things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
New things, old things, dead things

Aye, when I'm off the gas, I can't feel a thing
Baby, I just spend some money on this diamond ring
I'ma hit it from the back, I wanna hear you sing
Like bada bing, bada boom, bada bing, bing
I was swervin', pressin' buttons in the foreign
I don't like to fuck with her because she borin'
I'ma hit it, bust a nut, and then I'm snorin'
They be hatin' 'cause a nigga is important
This the life that I know
On the road, doin' shows
Turnt up with my bros
Don't trust these hoes
Got straight drip on my clothes (yeah)
And I smoke all the dope
'Cause that's all I know

When I'm off the gas, I can see things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
New things, old things, dead things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
When I'm off the gas, I can see things
New things, old things, dead things

Please don't miss me

Please don't miss me
Somewhere floating
Please don't miss me
