The time machine
Go back to her memory
Yeah, yeah

Yeah, tryna whip the time machine
Go back to a memory
I see all these diamonds, icy on me shinin'
Lookin' all around me, color is all icy
Ring like a melody, money keep on calling me
Yeah, tryna whip the time machine
Go back to her memory
I see all these diamonds, icy on me shinin'
Lookin' all around me, color is all icy
Ring like a melody, money keep on calling me

Look out on the balcony I can see the phonies
Sleepin' in Atlanta, dreamin' bout some trophies
Waiting on a grammy, I'ma run it up fast
Hater pulled a hammy, boy came in dead last
Boy came in dead last
Look around me I wonder what'll really last
Look around me stepping on clear glass
Please don't drown me I'm just tryna swim past
Yeah, swim to the past to a memory
Now I'm on my own with no enemies
Private Island on the high sea
Yeah, now color is all Icy
Diamonds on me icy, underwater Pisces, yeah
Now on my own, but I know I'm not alone
Had a dream 'bout my granddad, we saw U.F.O. yeah

Yeah, tryna whip the time machine
Go back to a memory
I see all these diamonds, icy on me shinin'
Lookin' all around me, color is all icy
Ring like a melody, money keep on calling me
Yeah, tryna whip the time machine
Go back to a memory
I see all these diamonds, icy on me shinin'
Lookin' all around me, color is all icy
Ring like a melody, money keep on calling me
