

## Trust Issues

6 Dogs

Pretty Pacc

Yeah

I've been waitin' for you, yeah

Ain't got trust issues, but I'll be quick to cut you off  
Soon as you stop lovin' me, me and you stops  
I wanna find a lil' shawty 'fore I'm at the top  
It's hard to tell if she like me, or it's just the guap  
Knew it was the eight, but at the time I was lost  
She made me go insane, yeah, she did that a lot  
Heartbreak, chest pain, hurts when I cough  
Runnin' from the memories but I can hardly walk

Feel like I'm A.I. 'cause I'm so robotic  
Money hit my FaceTime, we just like talkin'  
Life's like Netflix, you choose what you watchin'  
I don't like this flick, good thing I got options  
Diamonds on the wrist and they wet like a dolphin  
They know I got the sauce, well, sauce drips  
Pick up where they left off 'cause they all lost  
And my tears ran dry, 'least I'm drippin' like a faucet

Pick me up

And take me out this empty room

I've been waitin' for you, yeah

Pick me up, take me out this empty room  
Nothin' on the walls and the wallpaper's blue  
Stack my paper and tall and that paper's blue too  
Pulled up to the party late, sorry, that was rude  
They be actin' sketchy, I can see just how they move  
Glowin' like the Sketchers that I wore when I was 2  
That's a flex (That's a flex)  
Yeah, by now you probably know that I'm next  
Yeah, I'm next (Yeah, yeah, yeah)

Pick me up

And take me out this empty room

I've been waitin' for you, yeah
