

Pose 2 Do

645AR

(Don't play wit him)

What you posed to do when they change on you
It's like I put my faith in you
And you just do what you posed to do
And they all said we'd ride till the wheels fall off
I paid that cost, I took that loss
I do what it take to be a boss

And I got a record deal on my chain
He dig the streets I put the pain
We still taking risks for the gang
And a lot of niggas ain't took risks for no gang
I took a risk I made a name
Pop my shit I'm entertained
And I'm just waiting on my turn
Niggas changed they berserk
They won't make the shit that I earned
Try the team, I'm tryna bow
Don't stay for nothing we gon' fall
I had to give this shit my all
Money incoming like a call
I told a bitch fuck it we ball

What you posed to do when they change on you
It's like I put my faith in you
And you just do what you posed to do
And they all said we'd ride till the wheels fall off
I paid that cost, I took that loss
I do what it take to be a boss
What you posed to do when they change on you
It's like I put my faith in you
And you just do what you posed to do
And they all said we'd ride till the wheels fall off
I paid that cost, I took that loss
I do what it take to be a boss
