

The beef's still frying like man's tryna burn it (Burn it)  
Cali, I burn it  
Your skin, I'll burn it  
My clothes, I'll burn it (Burn it)  
Bro got birded, firmed it  
Now he's on the landing tryna get burn in  
It's gonna be a minute till he's returning  
So bro's readin' books and learning (Learning)  
I'm grafting, working, earning  
Everything I do is to get pounds, sterling (Sterling)  
The sixties are lurking, lurking  
Spot one, drop one, driver, turn it (Glee)  
Peng ting looking all sexy  
Longest hair, could be straight or curly  
Wake and bake, count up when it's early  
I sleep late but I wake up early  
Cali and herbal teas when it's early

The sixties are out here lurking (Skrtrt)  
Lurking (Skrtrt), lurking (Skrtrt), lurking (Skrtrt), lurking (Skrtrt)  
Spot one, driver, turn it, burst him (Glee)  
Have you ever had jakes on your back and your foot's on the gas when the vehicle's tilting? (Skrtrt)  
Tilting (Skrtrt), tilting (Skrtrt), swerving, swerving  
Bro's too grouchy like where's my sliders?  
Pass me the keys, I'll drive  
You don't know how much waps we've put on rides  
So much guys got hit with 'bine  
So much waps, coulda had a museum (Waps)  
One's got a clip on the side  
For my drillers though, we're outside lettin' it fly  
No cap, we're still outside lettin' it fly  
Go trips abroad, we got his dry skin fried  
Tell him "Come off his hype"  
I make serious racks, man, please sit down  
Man, your racks are shy (Timid)  
When I smile and talk, see my diamonds shine  
I get paid for my words, I get paid for my time  
Free my lil' bro kids, we ain't spoke in time  
We got loads of time, man, free all the guys (Free 'em up)

I bought my mash some teeth , way before I bought white gold diamond teeth  
I smoke so much weed, tryna hide all the stress and grief and police  
A hundred racks ain't enough, need a mill so my daughter can live so free  
Hoes and feds are still tryna pree me, some low but I'm high all week  
When I feel low, I get high all week  
Cali bust to the face, no midi trees  
We expect P's and a fry, you liars claim you got midi beef  
I'm tryna maintain this wealth and health so I grind and I don't eat meat (Healthy)  
Me and bae get lit, she got the longest natural hair, no weave  
Everyone talks about war but they don't really know how this war ting goes,  
no  
It was a push bike ting with shanks way before we had waps and dingers galore,  
bro (Man's lurking)  
"67 ain't on shit", yeah, yeah, how much man got left on the floor though?  
He got hit in his head, he got hit in his back, he got hit in his torso (Torso)
