I remember those days in the trap
I even had my own keys to the flat
I was in and out bussing them packs
Still pissed the feds shut down that
But, luckily I didn't go jail got a year probation like oh well
I gotta hit the road and get more sells
Got my mind on money like fuck girls
Now here's what I done
Bought me a sim then I copped me some grub
Food on my line, I got that from the plug
I phone up my yungen and it's time to get buge
Mother fuckers never loved me
I be out here getting money cause I'm hungry
You niggas looking like junkies, just copped a new ting it looked lovely

I trap and I trap
I trap and I trap and I trap
And I get stacks, got racks up on racks up on racks

I be trapping all week in the same nike tracksuit
C line keeps moving all slow with the p's
I'm like don't make me slap you
I know that he's playing that's bro
But, he got no brain like a statue
Hella niggas be looking at time for a man that they sold a one pack to
Same time I still gotta make p's so I shot them o's like fuck what the law s
ays
I gotta shout my plug, he's been flying them birds since Nike made Cortez
Them days I didn't know about grub
I was in school with the nine and some slugs, then I told rick imma sell him
 a gun
He thought we was, I was lining him up

So in love with the cash, all the shit that I do for the money is horrid
7 gs from a pac all in 2 and a q
How the fuck could I stop it? (I trap)
