VVS diamonds and things that spray
Still on the same estates
My niggas get trappy, get money all day
Still got beef with the opps
And were frying that down, who cares if it's bait?
Still run from the feds cos a man like me can't be catching no case

Bro bought a 18k right after he bought him a drumstick
But don't get it twisted, you can still get grabbed if your brown gangs stunting
