

They All Agreed

'68

Giving up to the undertow
To our surprise, she remained afloat
I'm taking kindly to these cowboy songs
A Hallelujah ain't a thing that's left my heart or my home

This is always my least favorite part
Taking questions that ain't been said
This is always my least favorite part
Taking questions that ain't been said

Say hello to my dying breath
Sweetheart, I'm doing my best
You're the calm, I'm the hurricane
I like you, you always shoot me straight

This is always my least favorite part
Taking questions that ain't been said
This is always my least favorite part
Taking questions that ain't been said

To the voices that are in my head:
I couldn't do it without you
To the voices that are in my head:
I can understand
To the voices that are in my head:
They might be happier without you
To the voices that are in my head:
Let's wake the dead

This is always my least favorite part
Knowing it deserves to bleed

Let's circle back when the tidal wave is gone
Let's circle back when the tidal wave is gone
Let's circle back when the tidal wave is gone
Let's circle back when the tidal wave is gone
Let's circle back when the tidal wave is gone
Let's circle back when the tidal wave is gone
