I'm in candy land, and I won't ever leave
So will you stay with me, yeah will you stay with me?
I infect in your heart with something sweet but tart
Yeah, I'm in the candy land, yeah I'm in the candy land
I'm in candy land, and I won't ever leave
So will you stay with me, yeah will you stay with me?
I infect in your heart with something sweet but tart
Yeah, I'm in the candy land, yeah I'm in the candy land

I just got a sugar rush
Super hot, I'm gonna blush
Lookin' cunt, I'm lookin' lush
Don't be shy, you wanna touch
Take a bite and break your jaw
Perfect baby, see no flaws
Kool-Aid red all on the walls
Let me lick your cherry-
I-I-I just got a sugar rush
Super hot, I'm gonna blush
Lookin' cunt, I'm lookin' lush
Don't be shy, you wanna touch
Take a bite and break your jaw
Perfect baby, see no flaws
Kool-Aid red all on the walls
Let me lick your cherry balls
Wanna feel your jelly beans, DNA inside my genes
Candy coated in my dreams
Gonna make me candy cream
Jolly Rancher, Sour Surge
I got flying chocolate birds
Ropes with knots made Nerds
Jelly beans that turned to skirts

I'm in candy land, and I won't ever leave
So will you stay with me, yeah will you stay with me?
I infect in your heart with something sweet but tart
Yeah, I'm in the candy land, yeah I'm in the candy land

I'm in candy land, baby sweet 'n tart
Stop staring at my ass and come and stab my heart
I got the drugs in my bag
Pop out smoke me a fag
Caught two flights, I got lag
Just to see you get mad
That I'm winning
Candy got me spinning
Stop jerking while you're filming
Just say you wanna kill me
Candy land
Candy land
Ca-ca-candy land
