

Dance With U

6arelyhuman

6arelyhuman

Take me up to the club, up on 7th street
Come pick me up in your car, if you fuck with me
Ro-Ro-Ro-Roll it up, you know, I got a couple G's
And I ain't stretch my legs, but you know that I'm poppin' knees
I'd do anything you want, just say pretty please
You give me oxygen, you act like them fuckin' trees

I know how you are, don't you hide it
Do-Do-Don't let the Earth make you go quiet
I-I-I how you are, don't you hide it
Do-Do-Don't let the Earth make you go quiet

Dance through the night, yeah
Dance through the morning
We can dance tonight, no warnin'
Dance through the night, yeah
Dance through the afternoon
I see your skin, it shines under the Moon

I just wanna dance with you
I just wanna dance with you
I just wanna dance with you, oh
I just wanna dance with you
I just wanna dance with you
I just wanna dance with you

There's something that I can see in our near future
So put your phone down, stop watching YouTubers
You don't even realize that you are cuter
I guess that just the perspective of the viewer
I wanna spoil you, but not with money
I wanna show you that you really mean something
Why you laughing? I ain't sayin' nothin' funny
You give me butterflies, right in my tummy

Dance through the night, yeah
Dance through the morning
We can dance tonight, no warnin'
Dance through the night, yeah
Dance through the afternoon
I see your skin, it shines under the moon

I just wanna dance with you
I just wanna dance with you
I just wanna dance with you, oh

Will you dance with me? (Oh-uh)
Will you dance with me? (Oh-uh)
Will you dance with me? (Oh-uh)
Will you dance with me? (Oh-uh)

We're gonna party like there's nothin' to lose
Let's have some, baby, fuck the rules
I'm getting drunk tonight, we might fuck with tools
We're skippin' class, 'cause we're too cool for school

When you hear the drum, say "Heyo"
Drinking to the K/O
I do what I say so
My bitch is so fuego

I know how you are, don't you hide it
Do-Do-Don't let the Earth make you go quiet
I-I-I how you are, don't you hide it
Do-Do-Don't let the Earth make you go quiet

Dance through the night, yeah
Dance through the morning
We can dance tonight, no warnin'
Dance through the night, yeah
Dance through the afternoon
I see your skin, it shines under the Moon

I just wanna dance with you
I just wanna dance with you
I just wanna dance with you, oh
I just wanna dance with you
I just wanna dance with you
I just wanna dance with you
