6arelyhuman

I walk up in the club, and they know that it's me (Hey guys)  
Flashin' all the lights, yeah, I look so pretty (Mwah)  
We dancin' to the beat, yeah they playin' Whitney (Let's go)  
Is that disco tech, or is it that 6arely?  
I'm 6arelyhuman, the one to influence  
I stepped up on the scene, baddest bitch to ever do it  
Copy my swag, but they still try to use it  
Do it like me but you really abuse it

That's just how I do  
D-D-Do me, baby, you should do you too  
That's just how I do  
I'ma do me, baby, you should do you too

Let's pop some bottles baby, get on the move  
She love me and all my gadgets, what a mood  
It's such a pain being with you  
All our love is gone, so misconstrued  
And now I'm screaming for you-ou-ou-ou  
You always hide from the truth (Always hide from the truth)  
And now I can't move (Now I can't move)  
Baby, just trust me, I can show you what to do  
Still, you're so fucked up, always sipping drank now  
Cut off all your friends, I know you're a dirty skank now  
Kill you 'cause I hate you, I'll do it for you  
Baby, please stop talking 'cause you know how I do

That's just how I do  
D-D-Do me, baby, you should do you too  
That's just how I do  
I'ma do me, baby, you should do you too  
That's just how I do  
That's, that's just how I do  
I'ma do me, baby, you should do you too

Don't you act like I won't listen  
For greatness to come, I'ma need my distance  
I'm not toxic, I gave you a reason  
I see that you're crying but know that I'm leaving  
That's just what I do  
Every time you need me, I just leave you  
That's just what I do  
Every time you need me, I just leave you
