Because Kim wants it around her schedule?
Do you know what we're fighting about? There are-
Maybe if you had a ***** business you were passionate about
You would know what it takes to run a ***** business
But you don't

Haters, all they do is stalk me
Printer, all they do is copy
Start more drama, your career is flopping
Better give up now, you were never popping
They wanna talk about me
They some drama queens
They wanna talk about me
They some, they some drama queens
They wanna talk about me
They some drama queens
They wanna talk about me
They some, they some drama queens

Drama, drama, drama, drama
Drama queen, drama queen
Drama, drama, drama, drama
D-d-d-d-drama queen

Every time you see me in bikinis with martinis
You ain't talking about my waist, but that shit is super teeny
Don't touch my hair, gotta cover it with a beanie
Got a block list, 'cause I know I'm super dreamy
This ain't a wish, I ain't fuckin' genies
Talk that shit 'cause you'll never see me
Yeah, you gotta love how I strut and do the catwalk
Earned my respect, when I walk, take your hat off
Yes, I'm that bitch, B-I-T-C-H
Always dropping songs, now I rest my case
Those Kylie lip kits won't fix your face
Kylie lip kits won't fix your face

Don't be ***** rude
Are you kidding me?
I swear to God
Stop
Don't be so ***** rude
What are you doing?

Haters, all they do is stalk me
Printer, all they do is copy
Start more drama, your career is flopping
Better give up now, you were never popping
They wanna talk about me
They some drama queens
They wanna talk about me
They some, they some drama queens
They wanna talk about me
They some drama queens
They wanna talk about me
They some, they some drama queens

Drama, drama, drama, drama
Drama queen, drama queen
Drama, drama, drama, drama

I want a Glock, hot pink, for protection
Only Bratz dolls sit in my section
Yeah, bitch pipe down, learn your lesson
And I'm chillin' with your dad and I gave him an erection
Up and down like a car inspection
So sweet, like punch served infection
One, two shots, yeah I need injections
See me at the front, like I work reception
Bad bitches get in, no exception
First things first, give a good impression
Gimme dirty money, turning lemons into lemonade
All these hoes one-hit-wonders, yeah they minute-made

What are you doing?
**** heard of you
Don't be ****
Heard of you
Heard of you
Heard of you
Heard
Heard of you

Haters, all they do is stalk me
Printer, all they do is copy
Start more drama, your career is flopping
Better give up now, you were never popping
They wanna talk about me
They some drama queens
They wanna talk about me
They some, they some drama queens
They wanna talk about me
They some drama queens
They wanna talk about me
They some, they some drama queens
