

# FADE AWAY

6arelyhuman

I gave it all to you, just for it to go to waste  
I miss the way you told me it would all be okay  
This time, please listen to what I say  
Before the clock runs out, it fades away  
Before the clock runs out, it fades away

Don't let go, I can feel my soul  
Rotting through my bones  
Baby, don't let go

Don't let go, feel my soul  
Rotting through my bones  
Baby, don't let go

I'ma have to fade away  
Someone get me out this place  
Running for so long  
Lately, I feel like my soul atake

I'ma have to fade away  
Someone get me out this place  
Running for so long  
Lately, I feel like my soul atake

Stay with me, my baby  
Can't you see me aching?  
I can't breathe, I'm shaking  
Driving me so crazy

Stay with me, my baby  
Can't you see me aching?  
I can't breathe, I'm shaking  
Driving me so crazy

All the promises, how could you break them?  
All that I wanted, now you're all that I hate  
Can you be honest, or was I mistaken?  
Into the darkness, I'll fade away  
Into the darkness, I'll fade away  
Into the darkness, I'll fade away

Stay with me, my baby  
Can't you see me aching?  
I can't breathe, I'm shaking  
Driving me so crazy

Stay with me, my baby  
Can't you see me aching?  
I can't breathe, I'm shaking  
Driving me so crazy
