Catch me at the DJ booth, yeah, I play it loud  
If you wanna get down, down, down, down  
If you don't love me now, then you'll come around  
Pack that glitter on your eyes, yeah, in large amounts  
Know they want to watch me fall  
But that won't happen at all

'Cause the lights go out and the music plays  
And my nerves go out as the mixer fades  
We can all come to come together when the music plays  
Hey DJ, play the older things

When the music plays  
When the music pla-a-a-a-  
All come together when the music plays  
When the mu-u-u-u-usic plays  
Mu-mu-mu-music plays  
Hey DJ, come and look my way

Feel like Kesha when I'm wakin' up in the morn'  
These other bitches are so basic, they got me so bored  
I'm with my girls, and we rockin' that Juicy Couture  
Yeah, we don't care about the price, wreckin' all the stores  
Glitter all over the floor, you can see it fall down  
DJ looks at me and he like how I'm dancin' around  
Everybody stop and stare the moment I hit the town  
I'm the baddest of them all, so where is my crown?

'Cause the lights go out and the music plays  
And my nerves go out as the mixer fades  
We can all come to come together when the music plays  
Hey DJ, play the older things

When the music plays  
When the music pla-a-a-a-  
All come together when the music plays  
When the mu-u-u-u-usic plays  
Mu-mu-mu-music plays  
Hey DJ, come and look my way

Aaah, aaah, hu-uh  
Hey DJ  
Hey DJ  
Play that record for me, for me-  
Know they want to watch me fall  
But that won't happen at all

'Cause the lights go out and the music plays  
And my nerves go out as the mixer fades  
We can all come to come together when the music plays  
Hey DJ, play the older things

When the music plays  
When the music pla-a-a-a-

All come together when the music plays  
When the mu-u-u-u-usic plays  
Mu-mu-mu-music plays  
Hey DJ, come and look my way
