

LUV ME

6arelyhuman

Goodbye (Goodbye)
6-6-6arelyhuman
(□□□□, Vyzer)

Ah girl, I know you love me, b-b-baby do something for me
I-I know you know it, know it, it's not something in your head
Push me to your bed, know you want it bad
I-I can fulfill all your fantasies, come grab my hand

We can have some fun, baby I know what you want
Lately, I've been stuck up on some bullshit that you wanna run
from
But you can't escape it, a-a-and you don't wanna face it
E-E-Every day feels the same, like I'm stuck in a loop
I've been trying to help you break it

I got you on my mind, think of you all the time
I might be crazy, but baby, I'm bleeding from my eyes
I know the night was long, and I won't come alive
Just saw you sittin' as you will, you stay right by my side

Baby girl, you know you're mine, let me sink into your mind
Nah, I don't care if it's hard for you
Baby girl, you don't understand what I've been feeling, nah
Walk into my limits but we just got started, yeah

Ah girl, I know you love me, b-b-baby do something for me
I-I know you know it, know it, it's not something in your head
Push me to your bed, know you want it bad
I-I can fulfill all your fantasies, come grab my hand

Baby, don't you play with me, I've been here since the start
I'm the one who stole your heart, but I can rip that shit apart
It's been hard, I've been trying to restart
Why you fucking 'round with him, when you could be fuckin' a st
ar?

Girl, I know you love me, b-b-baby do something for me
I-I know you know it, know it, it's not something that's in you
r head
Push me to your bed, I know you want it bad
I can fulfill all your fantasies, come grab my hand
