

# My Flaws

6arelyhuman

KANEDA, KANEDA

I just keep repeating patterns, yeah, I need to make a change  
Am I normal, baby? Do you think I'm deranged?  
I-I just feel so different, but I really stay the same  
I-I-I wanna just live my life without feeling pain  
It's 4 A.M., hold the clock, time is moving  
Keep the arm, make it stop, feel so stupid  
I'm in my head again, I'm a loser  
I'm a weirdo, takin-drug abuser

This time, yeah, this time is different  
I didn't wanna live to see my future or remember it  
But I can't do this, wasting time on pause  
I'm on the edge, 'cause I remember all my flaws  
This time, yeah, this time is different  
I didn't wanna live to see my future or remember it  
But I can't do this, wasting time on pause  
I'm on the edge, 'cause I remember all my flaws
