6arelyhuman

Got my shot class, fill it up  
Ain't no vodka, drinking rum  
Acting up, we're fucking dumb  
Dance to the beat and bang the drum  
So cute, chewed like gum  
Outta bottles, let's get some  
We don't care where you be from  
Need that dun dun dun dun dun

Turn it up and play it loud  
Come and join us we can't turn it down  
We don't give a fuck can't kick us out  
If you're with me now let's hear you shout

So meet me out in the parking lot  
The club is closed but we don't ever stop never stop  
What's your name baby I forgot  
The party's better in the parking lot parking lot  
Ohhhh  
The party's better in the parking lot  
Ohhh  
The party's better in the parking lot  
In the parking lot

Best friends hellla bad  
Park your truck then pull it back  
Need a drink where the cooler at?  
Diet coke and a little jack  
Chest beat, heart attack  
Like an iHop triple stack  
Head to toe all black, but you already knew that

Turn it up and play it loud  
Come and join us we can't turn it down  
We don't give a fuck can't kick us out  
If you're with me now let's hear you shout

So meet me out in the parking lot  
The club is closed but we don't ever stop never stop  
What's your name baby I forgot  
The party's better in the parking lot parking lot  
Ohhhh  
The party's better in the parking lot  
Ohhh  
The party's better in the parking lot
