

Scene High 2

6arelyhuman

H-h-h-here we go again, all these men tryna steal my heart
Bitch, I'm 6arelyhuman, get me wet just like Noah's Ark
L-l-l-lost so many friends, knowin' that'd it tear me apart
When I met you, I knew it was love from the start
Light me up from above, yeah you were my star
I was fucking with grenades, need to raise my bar
Even out the playing field, need to see from afar
See how fast we can go, baby, get in my car

Don't tease me, I know what you're after
Face down, ass up, baby, go faster
Baby, go faster
Baby, go faster
B-b-b-b-baby, go faster

Turn up the speed, when it's just you and me
Yeah, you don't think I'm that bitch, I'll make you believe
T-t-turn up the speed, when it's just you and me
Yeah, you don't think I'm that bitch, I'll make you believe
Make-make-make you believe
Make-make-make you believe
Yeah, I'll make you believe
Everything you can see
Make you believe
Make-make-make you believe
Make you believe
Make-make-make you believe

When we argue, I just feel like a supernova
I still remember the first time that you came over
I let you change me, but I won't let it happen again
I'm standing on my own two feet, bitch, I'm tapping within
Still hit my phone like, "How have you been?"
Do-do-don't even act like you out here talkin' to me

Don't tease me, I know what you're after
Face down, ass up, baby, go faster
Baby, go faster
Baby, go faster
B-b-b-b-baby, go faster

Turn up the speed, when it's just you and me
Yeah, you don't think I'm that bitch, I'll make you believe
Turn up the speed, when it's just you and me
Yeah, you don't think I'm that bitch, I'll make you believe
Make-make-make you believe
Make-make-make you believe
Yeah, I'll make you believe
Everything you can see
Turn up the speed, turn up the speed, when it's just you and me

Lost so many friends, knowin' that'd it tear me apart
When I met you, I knew it was love from the start
Light me up from above, yeah you were my star
I was fucking with grenades, need to raise my bar
Even out the playing field, need to see from afar
