

Sinister

6arelyhuman

It's everything I regret

And I remember the day that we fucked (That we fucked)
There was no way I could forget you (Could forget you)
So I followed your home
And I put a little tracker on your phone
And I crept, I went into your room just to tuck (To tuck)
I laid next to you, and I knew (I knew)
To never let you go (Oh, oh-oh)

I know it seems so long
But I'm just a fucking animal
A-a-a-a-a-

(You can go-) Fuck me baby, I don't wanna leave
Choke me out, everyone can see
We all know that you're so in deep
I'm addicted to your gun
I can be sinister
I can be sinister tonight
I, I, I, I need your fix, 'cause I just like it so rough

Trust me, I get psycho, baby
I get hot, no pyro
Come and eat me, like it's gyro
These men stay horny like rhino
So don't touch me, giving crust
Only want me for the lust
Only want me for this bust
Titties bigger than a bus
We like them big, that's a plus
Got him chain, keep it hush
Got these eyebrows from a brush
Keep it low-key, you're my crush
Okay, keep it up, have you chained up in a basement
If the press come, I won't give a statement
Have you kissing on the floor, baby, that's the pavement
I can keep it under wraps just like an agent

(Uh) You should of saw this coming
You know I fucking eat, bitch

(Fuck-fuck-fuck-fu-fu-fu-) Fuck me baby, I don't wanna leave
Choke me out, everyone can see
We all know that you're so in deep
I'm addicted to your gun
I can be sinister
I can be sinister tonight
I, I, I, I need your fix, 'cause I just like it so rough
