Okay, does he want to overdose?
Does he want sobriety?
Learning new ways to work through this anxiety
Traumatized boy, yeah he just needs some privacy
Long-lost soul seeks help in community

They told him God loves you, he'll keep you safe
How will you drive when the isn't road paved?
No guidance, know how to live, just be brave
Some broken bones, while the others kiss the graves
Stand strong, meet adversity in its face
Pace along, take it slow, inspect the energy
Only way for an outcast in society
Only way for an outcast in society
