Oh my God, stop the music

Bitch I'm doing backflips, eyes in back of eyelids
Twenty One Pilots, I see islands of violence
I wanna see your face, and I ain't talking Skype bitch
Fucked up in the head, I ain't never excited

Motherfucker hit the pen, he-he hit a blinker
When I go to Hell, make sure that I meet the Reaper
Somebody stole my heart, yeah, I need to find the keeper
I was seeing smoke, but I ain't see Wiz Khalifa

So take me down
I wanna go where there's nobody else
Can't hear a sound
Baby, let me know if I'm under your spell

Bitch I'm doing backflips, eyes in back of eyelids
Twenty One Pilots, I see islands of violence
I wanna see your face, and I ain't talking Skype bitch
Fucked up in the head, I ain't never excited

Excited, I'm dying
Baby, I ain't lying
I'm trying, I'm trying
I feel like I'm barely surviving
Do you trust me? Do you trust me?
Baby, can you tell me all your secrets?
Your secrets, all your demons
Deep inside, I know you don't wanna keep it
Tell me about you, biography
Feel like I'm standing in a mother fucking movie scene
Let's get it poppin', don't make it clean
I just you to rip me up from the seams
In my dreams, keep on falling
So many sacrifices, I'm going all in
They keep on calling for favors
I be so faded, no taper

Bitch I'm doing backflips, eyes in back of eyelids
Twenty One Pilots, I see islands of violence
I wanna see your face, and I ain't talking Skype bitch
Fucked up in the head, I ain't never excited
